HP Pro 3300 Small Form Factor PC

The newly re-designed HP Pro 3300 offers a full-function, great looking PC that is small enough to fit on your desk without sacrificing performance or space. With the latest in Intel® technology, it's all you need for worry-free computing.

HP recommends Windows® 7.

Small but powerful
Less is more when it comes to the small, but powerful HP Pro 3300 Business PC. You get more space and more convenient places to show off this all-new, fully loaded, exquisitely designed PC.

Productivity built in
The HP Pro 3300 offers SATA hard drives up to 1 TB[1]. You choose what's right for your business now, with room to grow later.

Latest technology
Equip your business with the all new 2nd Generation Intel® Core™ processors[2] and a Genuine Windows® 7 Operating System—for a work-ready combination.

Protect your business
Enhance your defenses with customized security solutions designed by HP - HP ProtectTools for Small Business[3] provides multiple security modules—just use the ones that you need.

[1] For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to16 GB (for Windows 7) of disk space is reserved for the system recovery software.

[2] 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Multi Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Intel's numbering is not a measurement of higher performance.

[3] HP ProtectTools requires Microsoft Windows.
